

Help Someone Suffering from an Accident/Injury Today!

Severe health problems often begin as a little fall, whiplash, bump or shake-up that causes the spine to get out of alignment. Even without broken bones or serious bleeding, spinal damage may occur and go undetected. Accident victims often needlessly suffer from pain, weakness and disability for months, years, even decades following the initial trauma. And yet, Chiropractic may offer relief. Anyone who has been in an accident or has suffered trauma--whether mild or severe, recent or a long time ago--should see a chiropractor.

A chiropractic adjustment can make the difference between a life with pain, disability and sickness and a life with full recovery, activity and health.

The Chiropractic mission is to help people heal without masking their pain with drugs. We can't reach everyone personally to tell them that Chiropractic can help but we can offer a helping hand: Refer those who you think could benefit from our care and we will give them our honest and sincere assistance—and this certificate for a complimentary exam.

Valued at \$260 Special Offer Valid: Oct 30 - Nov 10, 2017
