

Help Someone who Has Back Pain Today!

Seven out of ten people are bothered by back pain. Waking up stiff and sore in the morning is a warning sign that your spine may be in trouble. Stabbing back pain is another warning sign. Decreasing your levels of activity, taking pain killers or feeling tired and sore at the day's end are all signs that something isn't right with your spine.

Why do so many people experience back pain? Because even though we are taught at an early age to have our teeth, eyes and ears checked, no one ever taught us to have our spine checked!
